

NAMAN CHOPRA

SENIOR WEB DEVELOPER

EXPERIENCE

Senior Web Developer

Sep 2024 - Present

WOW Events Pvt. Ltd.

- Experienced in CRM integration & dynamic web app development using Laravel, focusing on performance, scalability, and efficient user data management.
- Skilled in AJAX, JavaScript, secure API development, & MySQL optimization, with a strong track record of enhancing UI/UX, fixing bugs, & adding features for event management systems.

Web Developer

Sep 2023 - Jul 2024

Redefine Marcom Pvt. Ltd.

- Designed responsive UIs with HTML, JS, jQuery, Bootstrap, & AJAX, & developed PHP-MySQL admin panels, event registration backends, & visually engaging newsletters/EDMs.

Web & Graphic Designer

2022 - 2023

Working as Freelancer

- Designed social media posts for Facebook, Instagram, and other platforms, along with mobile-friendly websites, banners, brochures, ad creatives, & logos. Created engaging videos & motion graphics.

PROJECTS

Web Applications for Business & Event Management

- Built business & event management tools with CRM, lead tracking, attendance, performance, & profit analysis, plus event progress tracking & client updates.
- Created dashboards & landing page builders for visual insights & quick event microsite creation with videos, photos, & documents.

Dynamic Website with Advanced Admin Panel

- Developed a feature-rich website with an intuitive admin panel, allowing easy management of blogs, articles, product updates, & services.
- Integrated a media gallery for images and videos, enabling seamless content updates for better audience engagement.

WhatsApp Messaging System with Scalable API Integration

- Built a backend system using Node.js and Laravel to send unlimited WhatsApp messages via API, CSV upload, or form input — completely free and efficient.
- Enabled multi-account integration, allowing users to connect multiple WhatsApp numbers & manage messaging at scale from a single platform.

SUMMARY

Full Stack Developer with a passion for creating robust web applications. Experienced in both front-end & back-end development, adept at utilizing a wide range of technologies to deliver high-quality solutions.
